

Submitter:

Laura Adams

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

We have had vote-by-mail since 1995 and it has been smooth in terms of the ability of people to vote. It offers the ability to thoughtfully research issues and candidates and offers greater ease of access to voting. It also has made it possible for working people to vote more consistently. There has been clear benefit to this system. There is no reason to eliminate this system of elections here in Oregon. I am staunchly opposed to this measure and it seems very poorly thought out as to costs. It would undermine the quality of our democracy.

Sincerely, Laura K Adams, DC
