

Submitter:

Kristarae Allman

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I started voting as soon as I turned 18 and I have always taken it seriously. I take my time read through all of the info needed and take my time to fill out everything correctly. As someone with high anxiety this has always been a safe and reasonable way to vote. I know so many people who can't make it to vote in person and wait in line all day to vote and we shouldn't change a process at all that is working and proven to be a success. I strongly oppose this bill.
