Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I moved here 17 years ago from Massachusetts, where standing in long lines at polling stations was the norm. In wealthier communities, the lines were shorter than in poorer communities, which bought fewer voting machines and hired fewer staff for polling places. We were delighted to learn about the mailed ballots in Oregon, which give everyone an equal opportunity to research their voting options and return their ballots without waiting.
