

Submitter:

Corinne Kotter

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

In person only voting puts undue burden on voters whether due to disability, work schedule, transportation, etc. This will disproportionately affect black, brown, other people of color, and ability status. I also imagine more folks being turned away if this were to pass.

It also will lead to lower voter turnout and less informed voting. Being able to sit and read and make an informed vote should be part of the state constitution.

I strongly oppose SB 210
