SB210

I support this common sense legislation.

We have a broken voting system and mail-in ballots are a huge part of the problem. Additionally, Oregon has the worst record of cleaning its voter rolls. It is critical that Oregonians have their faith restored in our voting process. In-person voting is the best way to begin this process.

With this bill, people can still opt to receive mail-in ballots if they absolutely must vote that way.

Why should only one side be able to vote the way it prefers?

Bring back in-person voting so those who support this legislation can begin to trust the voting process again.
