Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

What next! Is it not enough that our USPS is under threat by the Federal Government that instead of figuring out ways to protect and preserve that within OREGON (that which was established in the US Constitution), you bring forth legislation to destroy the best and safest way to vote!! You are asking Oregonians who have had the privilege to vote in the peace and safety of their own abodes to go to polls. Hell, no! Been to Central Oregon in winter lately?

You want us to present ourselves with id cards so that we can wait in lines, use voting machines which Starlink will upload and change the votes (it happened in Swing States 2024), while you move our polling places willy nilly and change the requirements for id whenever you please, and strip us from voting roles because our name looks foreign. Voter Suppression is very limited with vote by mail - and that is your problem is it not, Republicans?

The State has enjoyed the least expensive voting process for 20 plus years - polling places, voting machines, poll employees, are EXPENSIVE, comparatively.
STOP THE MADNESS.
