

Submitter:

Dennis Hull

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

The current system is not broken. It has served the people of Oregon for years. Safeguards make it a very reliable system and has had little to no problems. It makes it so all registered voters can get their ballots in on time. Something that the current administration is trying to break, like the author of this bill. Again, it is not broken and does not need to be changed.
