

Submitter:

Eric Brown

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I ardently oppose any measure whose intent is to restrict the voting rights of Oregonians, including limiting voting to same day, in person voting.

This is a solution in search of a problem, and a de facto voter suppression mechanism.

Oregon's record of free and fair elections and smooth administration of the election process is the envy of the nation. Don't degrade it!

There are many poor, infirm, deployed servicemen and women, or remote Oregonians who are eligible voters and who would be effectively disenfranchised by an in person, Election Day only voting law. That is contrary to the interests of democracy.
