When is enough enough? How much money are you on the Left going steal from the Oregon taxpayers? When are you going to learn that eventually, we will run out of money. I do not drink alcohol, and I do not use tobacco. But this is getting old. When will you disperse our money frugally? You do not need more of our money until you learn how to spend the funds we send to you. I am sick of politicians who think we have an endless supply of money. We do not. Especially those of us who are on a fixed income. Get your minds on spending less and stop giving favors to Public Employee Unions. We are your bosses, not them.
