

Submitter: Erubiel Morales Campos

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3542

My name is Erubiel, and I depend on my motorcycle every day as it's my only means of transportation, I ride in all conditions rain, snow, and everything in between. I am in strong support of HB 3542 because it represents a critical step toward protecting the lives of motorcyclists across Oregon.

Having escape routes is crucial to riding motorcycles, House bill 3542 would help motorcyclists avoid getting rear ended and getting "sandwiched" between two cars. I've had many close calls due distracted drivers nearly rear ending me while I wait at a red light.

HB 3542 provides a common sense solution to this deadly problem. By allowing motorcyclists to safely position themselves to avoid being sandwiched between vehicles, we're not just protecting riders we're preventing traumatic collisions that affect all road users.

YES to HB 3542
