SB210

Mail in voting has been proven safe repeatedly and allows voters to take their time with their ballot. I have been able to track my ballot and verify that my vote was counted every election, whether I'm sick, working, or simply want to take my time to be a thorough voter. I believe mail in voting is fair and makes elections more accessible to voters, and that there is no reason to make voting harder for citizens in a democracy. Forcing in person voting to be the only option is a ridiculous restriction that harms voters and our democracy.
