

Submitter: Liane Ledbetter

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This is something I strongly oppose. Oregon has one of the best voting systems in the world. Why would anyone want to ruin it? As a caregiver, requiring in-person voting will place a extreme burden on myself and people who I provide services to.

As an advocate of people with special needs, I urge for our voting system in Oregon to remain how it is (with vote by mail) because voting by mail allows voters time to read and study the ballots in order to make informed decisions. Vote by mail also allows people who have mobility & health issues to participate in their community without taking unnecessary risks to their health.

Making in-person voting a requirement is an ableist suggestion. I oppose this cruel proposal/bill. Please reject this bill and protect our vulnerable Oregonian's right to vote by mail.

Thank you for protecting vote by mail.
