

Submitter:

Leticia Garcia

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As an Autistic woman living with chronic illness, it would be close to impossible for me to vote in person. The crowds, unfamiliar environments, extended sitting and standing and other factors would make in person voting inaccessible to me. To endure these circumstances could have serious medical consequences, including sensory overload, fainting, migraines and even seizures. I should not have to choose between my health and wellbeing and my constitutional right to vote in elections. I should not have to pay the price of a seizure in order to exercise my right as a citizen. I'm positive that I am not the only disabled, chronically ill voter who would be negatively affected by this bill. Should it pass, this bill will effectively discriminate against us and violate our rights. Please vote against this bill and preserve mail in voting.
