Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As evidenced by Federal Government & other agency filing lawsuit on Oregon's dirty voter roles, it is obvious to me that we need this Bill. SB 210 to reform the election process. I support in person, same day voting with ID. There should be no use of voting machines counting ballots, there needs to be a hand count & no ballots after 8 p.m. on voting day should be counted. Let's not fool ourselves by defending the process in Oregon that is Unconstitutional : by using Motor Voter among other avenues to sign people up to vote, allowing dead people to still be on voter roles, as well as people that have moved out of state.

I am asking you to support SB 210!
