Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I am disabled. It would be a hardship on me to have to go in person to vote. I can't drive so would need to find a ride who can wait for me to vote and then give me a ride home, I can't stand in line because standing too long could mean I pass out, there are many health reasons why voting in person would be difficult. And that goes for many disabled people. Honestly, it would be so much work, and so hard on our bodies that we would probably just not vote. With the limited energy I have, doing basic things like taking a shower, making my food, loading dishes, takes everything I've got. Let alone the energy I'd have to expend for in person voting. Perhaps that is one of the motives of this measure, to suppress certain types of voters. But voting should be accessible to ALL citizens. And we shouldn't have to jump through 10 hoops just to get our votes to count. Our mail-in ballot system has worked for a long time. If it isn't broke, don't fix it.
