Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Leave mail in voting alone. Making everyone vote in person is just a republican form of voter suppression. It's 2025 and we should be voting online, if we can bank online, then we can vote online. Voting in person is just going to make it difficult, it's not a federal holiday and voters have to work. Which is what republicans prefer, people not vote. No one is committing voter fraud.
