SB210

As a senior with ongoing health problems I rely on mail-in voting to cast my ballot. Without the ability to vote-by-mail there will be some elections that I won't be able to vote in if my auto-immune condition flares up on Election Day. I'm sure that I am not the only person who will be denied the opportunity to vote if this bill passes. Please vote no on this bill and preserve the right to vote-by-mail for all seniors and disabled citizens in Oregon. Thank you.
