Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

My husband and I working in Mill and we live 30 miles out of town. Mail in ballots has helped us to cast our vote without having to drive into town. And with a different shifts that we work and the days that we work we need to have mail in ballots. With Sam, not having a transportation and relying on others this has been ideal and it has proven to be very effective. And the elderly can resubmit for their signatures as they get older and their handwriting gets worse. The courts work with elderly people.
