SB210

I love our voting system here in Portland, OR. I live in Buckman, close to the main polling location, but I always choose to use my mail-in ballot. I get confirmation of receipt and that my vote has been counted. Most importantly, I can take my time on it. I can research each issue or candidate with my ballot in front of me. And I can do it in advance, which is important if I have a busy work day or am away on business that day. Please do not change a system that is already working and make it more restrictive for voters. As a small business owner, I would certainly lose work and money by having to stand hours in line to vote. I'm certain this hardship would reduce voter turnout. Please do not make voting more difficult.

Thank you,
