Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This bill seems to be a thinly veiled attempt at voter suppression brought forth by someone who has no business making any sort of law--the author doesn't seem to think the January insurrection was problematic. Based on that opinion alone I would not vote for this bill. Oregon has been successfully voting by mail for decades and incidents of voter fraud have been exceedingly rare. Voting by mail allows the elderly, disabled, and full time workers to vote without extra expense or hardship. Taking this away would be "fixing" a problem that doesn't exist. For this reason, I oppose.

-A. Randolph
