Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

We need to continue to support mail-in-voting which allows for more people to be able to vote. The people that oppose mail-in-voting are only doing so to suppress voter turn-out and expand unconstitutional practices. Fair and free elections must require that voting be accessible to all voters and anyone who does not support the right of the majority of Americans to vote is anti-Democratic and does not serve the people.
