Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail is so convenient and accessible, and I believe that every state should have the option to vote by mail. Voting by mail allows me to study the voter guide at my convenience and make informed choices. In-person voting often requires people to have to take time off from work and can create a lot of obstacles for many voters. There is no legitimate evidence of voter fraud with voting by mail, and it helps prevent voter suppression. Voting by mail is something I love about Oregon. Do not take it away from us.
