Do NOT do this! I appreciate being able to spend several days reviewing my ballot and researching what's on it. I appreciate not having to take off work to vote, which is something many people cannot realistically do. I appreciate that more citizens have their voice heard, which is the entire point of elections. There is zero evidence of significant voter fraud. Preventing tons of people who have the right to vote from being able to cast a vote in the pursuit of preventing a very tiny number of people from voting when they aren't allowed to does not serve democracy. This is a blatant attempt at voter suppression. Any politician pushing for this should be ashamed of themselves.
