Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Taking away mail in voting will not stop voter fraud. All it will do is make it harder for marginalized persons to have their voices heard. Mail in voting makes it easy for working class people to take an active part in their government. If you take away my right to vote you are denying my existence as an American and treating others like me like second class citizens. I work and pay taxes! I DEMAND my right to vote. I DEMAND a safe and convenient way to have my vote counted! I OPPOSE having only one official voting day as there is no way every vote could be counted fairly this way! No working class person's work will give them a day off to stand in a line for a day! Take away mail in voting and you take away access to participating in government! DO NOT DO THIS!
