Thank you for voting no on HG3197! All the Oregonian's hear these days there's not enough money, just not enough money. May I seriously suggest that the Governor, Attorney, etc., the Senate and the Congress, definitely school board members get an update on how to budget money as each household in Oregon does to survive. Perhaps an refresher Math 101 course could be one suggestion. Look in the mirror and ask yourself, by my voting record, have I helped my fellow Oregon constitutes lives better ? Please give us Good News for once!! Thank You.
