

Submitter: MIKE SLAGLE
On Behalf Of: DEI is dead
Committee: Senate Committee On Energy and Environment
Measure, Appointment or Topic: SB1187

Why are you basing this bill on DEI? To combat climate change? How really does this tax, benefit the climate? It will impact families income based on carbon? This is a money grab to fund something that isn't there. Another plan by creating a problem for a focus group, to create a bill that would require citizens to pay for it. No more nonsense, no more taxes for these types of projects.
