

Submitter:

Richard Sanderman

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I'm old enough to remember before we had mail in ballots and it was sometimes difficult to get to polling station to vote. Now that we have mail in voting I have voted in every election. This would be a step backwards. We need to keep voting more accessible, not create more barriers. Our current system has been safe and secure and one of the best in the country. I therefore oppose any attempt to change our current system.
