Senate Committee On Rules

Measure, Appointment or Topic:

SB210

My spouse and I strongly support SB210. We have both experienced concerning issues with the Oregon mail-in ballot system for the last three elections after having living at the same Hillsboro address for ten years. In 2020 both of our ballots were delivered to the wrong address, our neighbors house, luckily they knew us well enough to hand deliver the ballots. In 2022 both of our ballots NEVER arrived and we had to drive to the election office to receive new ballots. In both 2020 and 2024 our ballots were delivered WET, thus making the return envelope pre-sealed and needing replacement. This seems like a big problem since midterm elections happen in a very wet season for Oregon. As both third generation, lifelong Oregonians we feel the mail-in ballot experiment has been a failure.

We strongly support SB 210 to return to secure elections with a provable chain of custody and reliable in person ballots.

Thank you!
