

Submitter:

Rowan Kingsbury

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose this measure. The benefits and accessibility of mail in voting are tremendous in increasing voter turnout and having fair elections for everyone. I want everybody to be able to vote whether or not they can travel to a polling location and waste time waiting in line when there is a clear, longstanding solution that already works fine.
