

Submitter: Lindsay Keeton

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I'm a former resident of the state of California and I have experienced both in person and mail in voting. I strongly oppose this measure as it will greatly diminish the accessibility to voting in Oregon. Our mail system for voting is very easy to use and accessible. Switching to in person voting will create an undue burden on Oregon voters who will need to take time out of their work schedules to find a voting location and wait in line. The mail in system allows voters to vote on their own schedule without creating that additional burden. Please reject this proposal.
