SB210

Oregon's current mail-in voting system is the best, most accessible system I've encountered. Having lived in four states, I know how difficult and cumbersome in-person voting can be. For people with inflexible schedules, limited time or access to transportation, mobility restrictions, etc., in-person voting is overly burdensome and unnecessary. Additionally, mail-in voting and the corresponding pamphlets, ensure every person has an opportunity not only to vote, but to be educated when they vote. For these reasons, I strongly oppose this bill.
