Senate Committee On Rules

Measure, Appointment or Topic:

SB210

The ability for citizens to vote by mail is critical to ensure that everyone has their voice heard in every election. Removing the ability to vote by mail will prevent many people from exercising their rights if they can't get time off of work or if they have to care for an infant. No government can rightfully allow this broad of a limitation on its people and still call itself a democracy, a democracy must give everyone an opportunity to participate and their vote.
