SB210

After the monumental corruption being discovered by DOGE, and the bizarre reaction by Democrats fully supporting continued graft, the electorate from both major parties are losing faith in our government. There have been numerous questionable activities associated with many elections in recent years further eroding public trust. It is time to adopt the common sense measures in SB210 to ensure our election process is fair and transparent so that public confidence in our elections can be restored.

The people have had enough and are awakening to just how deceitful and corrupt our government has become. We will not put up with this nonsense much longer. If you do not fix the problems and return us to a government that works in our best interest then we will replace you with those who will. If you want to continue your career in politics then you need to get on the right side of this issue. Continuing the status quo is unacceptable.
