Senate Committee On Rules

Measure, Appointment or Topic:

SB210

In this era of rapidly crumbling democracy of America, it is VITAL that we do not allow any further erosion of the Peoples' rights. The ability to vote by mail ensures that as many people as possible are able to have their voices heard during elections in Oregon. This bill would set a dangerous precedent of erasing voters' rights in our state and our country, and we cannot allow it to pass.
