

Submitter: Therese Cartwright
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210

Dear OR Senators and Representatives:

I strongly OPPOSE SB 210. This is clearly a partisan attempt to maliciously deny the Right to Vote to those homebound, non driving residents, rural voters which are significant & those with physical disabilities the right to vote.

Our current form of mail in ballots as VOTED on by citizens, who approved mail in ballots in 1981, 1987 & finally OR VOTERS approved Vote by Mail measure 1998, which has proven voting by mail as efficient and consistently IMPROVED OR voter turnouts.

In addition OR Voter Motor Act of 2016 assures and encourages people to Vote in the convenience of their own time on paper ballots that are signature verified.

Having personal experience in Klamath County Clerk requiring me to VERIFY my signature once and being dropped from the 2023 election due to Post Office Box error! Our systems of Voting by Mail here in Oregon is a GOLD standard for the country.

The only party proposing this bill in 2023 & now is the party that "claimed the 2020 vote" was stolen which was DISSAPPROVED LEGALLY in court case after court case, while costing the American people millions of dollars not to mention creating mis-information & fueling dissolution needlessly of our government for many unaware of our constitutional rights.

This bill is systematically attempting to usurp the people's Right to Vote and subjugatethe the will of the People here in Oregon .

Many are concerned and investigating to verify the legitimacy & possible digital interference of the 2024 Presidential election manipulations in NH, Pennsylvania, Ohio to mention just a few states probing this matter. All using voting machines.

So I strongly urge you to OPPOSE this bill on it's face. We Oregon voters voted for Vote by Mail and it's a Right and Our Privilege for this to Continue!

Thank you for OPPOSING SB 210 and taking action accordingly.

Sincerely,

Therese Cartwright
