Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a person who works multiple jobs with irregular schedules and as a person who is neurodivergent, voting by mail is the most accessible way for me to vote. Voting by mail ensures that I can fit voting around my jobs at a time of my choosing. Voting by mail lets me vote in the calm, quiet privacy of my home. Voting by mail (without the pressure of people waiting their turn behind me) lets me focus and deliberate so that I can give my vote the consideration it deserves.

As a U.S. citizen, I am appalled and incensed that SB 210 is being put forward. By eliminating vote-by mail, SB 210 (if passed) will impede my access to exercising my right to vote. SB 210 also will not make our elections more secure.
