Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose this bill. Our current mail-in voting system makes it easy to vote without unnecessary hassle. I do not believe this bill would have any significant positive impact, it is just another means by which the Republican party is trying to influence voter turnout at elections. There is no reliable evidence that there is increased fraud caused by mail-in voting. Mail-in voting is a better system for the average citizen.
