Measure, Appointment or Topic:

SB210

I am a severely disabled Oregonian and largely need bound. Most aspects of daily living or social participation are either completely inaccessible to me or require extra steps for special access. I'm Oregon, I have not needed special access to hire because mail-in ballots are the norm. I am able to lay in bed, take as long as I need, look up issues, candidates, and information without treating voting as a memorization exam to study for. It's requires no extra steps on my party to ensure my access bl don't know why you would want to take that away from me, and every other Oregonian. I firmly oppose this measure in the strongest possible terms.
