Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

In person voting and I'm a disabled person I can hardly walk... Yes that's what we need No more of this 3 week after the election Oregon is being deceptive by having counting going on that damn long... Anyone who's elected is a welfare working recipient so they don't need to wait that long The people say in person voting even for disabled persons They can order vote by mail if their too lazy to get their wheelchair over there to get it done...
