Please do not change our voting method! There is so much evidence that vote by mail is secure and not abused. It is so civilized and sane to be able to study the issues with information at hand, sit at the kitchen table and thoughtfully make my selections. Plus it's so convenient to mail my ballot in over a few weeks time vs having to miss work, to go to a polling place. I've voted my mail every time and I love it. Oregon is a national leader in this. Don't change it at all!

Thank you. Cathryn Calisch
