Melinda Williams

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a single mother with two children, who is also working and attending college, mail in ballots have been an absolute necessity for me. I am very busy during the day and have lacked any kind of childcare in the past, making it difficult for me to even go to the grocery store without keeping my children up past their bedtime as evenings are usually the only time I have available to do anything. Without mail in ballots, I would not be able to tend my children, keep my job, and attend school while still participating in local, state, and federal elections.
