Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon has among the best voter turnout and engagement in federal elections; a system that is working successfully does not need to be changed. The rationale and motivation for this bill is based on currying political favor and generating optics.

Oregon faces many real challenges and, to waste time and resources bringing this bill forward and through a hearing, is an example of legislators failing to represent true constituent interests. This is a waste of time and resources.
