

Submitter:

Jacklyn E Theoharis

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose this measure. As a native Oregonian and person with a medical disability, I know the value of being able to participate in the United States voting system in the safety and convenience of one's own home. To remove that from our state would significantly lower voter turnout and make our civic duty of participating in government elections a hardship for so many Oregonians. Please do not remove the common sense mail-in ballot model from Oregon.

Thank you,

Jacklyn Theoharis
