

Submitter:

Linda Miller

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This proposal is completely unreasonable. Why change something that has worked successfully all these years? I love the extra time I have to pore over the ballot and drop it off near my home or in my mailbox. Also, why should we have to get in our cars to drive to vote? Let's think about the environmental impact.

Please, please drop this ridiculous notion of going to a polling place. I'm a senior and it could impact my ability to vote.
