

Submitter:

Michael Pennington

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

We have proven for many years that Oregon can provide safe and fair elections via voting by mail. Our system encourages voting by making it more accessible and easier for Oregonians in their busy lives. Moving away from our current system would be regressive and just lead to suppression of voting turn out. Whichever party wins any particular election, it should be the will of the people. Continuing to support voting by mail will continue to bring out more voters. Please oppose this regressive measure.
