

Submitter: Toni McQuilken

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Voting by mail means that I have participated in every election since I moved here, even the small ones. It's convenient, gives me time to think about my choices and do research, and makes the process of participating in elections enjoyable. We should be pushing the rest of the country to move to this model, not looking to do away with it. We consistently have the highest voter turnout - why would you want to suppress people exercising their civic rights by making it more inconvenient?
