

Submitter:

Molly Matheny

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

In-person voting disproportionately impacts marginalized groups whom already lack representation or a voice in our democracy. It also disproportionately impacts the working class, and caregivers who aren't able to participate in in-person voting due to their unbreakable commitments. SB 210 is just another racist, elitist attack on voting rights designed to keep old white men in power.
