Senate Committee On Rules

Measure, Appointment or Topic:

SB210

We are a single income household, and my husband is semi-disabled. I am self employed & cannot afford to take the time off required (nor is my husband in any shape to stand in line for hours, perhaps a full day) to vote in person. It creates too much of a hardship on poor & disabled people. We've been successfully voting by mail for over 20 years! This bill is cruel and ableist, and should be struck down.
