Hello,

I am opposed to eliminating Oregon's vote by mail system. I have lived in Oregon for 50 years and the change to vote by mail made it easier and more fair for folks that work to vote. Also there was a time I was ill and would not have been able to get to the polls and was able to vote then also. There has never been fraud in this system as far as I know. They verify the signatures and contact you if it doesn't match. Please do not dismantled our fair and efficient voting system.
