Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Hello,

I would like to make note of the fact that I strongly believe Oregon should keep mail-in voting. There is no good reason for changing. This system is working well in Oregon and there have been no findings of fraud due to mail-in voting. Changing back to in-person only would make voting more challenging for many people and could create more problems with accessibility for some populations. There is no good reason to change back to in-person only. It doesn't make sense to go backward.

Thank you for your time.

Michelle M
